

Coroneo™ Punctal Gauge*

The Eagle Vision Coroneo Punctal Gauge is a complete gauging/dilating system in one instrument. It can be used to both gauge and dilate in increments from 0.5mm up to 1.0mm diameters. One tip is demarcated for 0.5, 0.6, and 0.7; flip it over for 0.8, 0.9, 1.0 on the other tip. So complete it takes the place of multiple instrument gauge sets.

CE Marked

- Single instrument gauge
- No need for multiple instruments
- Graduated demarcated tips on both ends
- Can be used with all punctum plugs
- Gauges and dilates from 0.5mm to 1.0mm diameters
